Subject: Accident [REDACTED]

On Tuesday August 30th, I was involved in a car accident with the State vehicle [REDACTED]. Car A was heading on Route 27N from Brockton Superior back to the State Lab in MA. Car A was on the left hand lane driving about 25mph heading north. Car B was coming out of the Cardinal Plaza/Foxy Lady area. He was trying to cross two lanes of traffic to head in the direction of Route 27S (south). On his attempt to cross the road, Car B hit Car A's rear passenger side panel causing some damage. It was a direct impact because he accelerated in order to cross the lanes. Car B sustained some minor scratches and his license plate came off.

The road conditions were moderate traffic and it was a sunny and clear day.

See attached pictures.

Sincerely,
Annie Dookhan
